

**INTERNATIONAL FORUM  
« ATOMEXPO 2010 »**

**MOSCOW  
June 8th, 2010**

---

**Laurent STRICKER**  
**Chairman of WANO**  
**Manezh Central Exhibition Hall**

# The WANO Mission

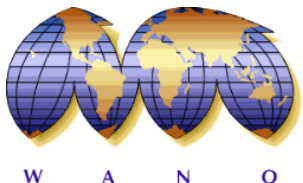

To maximise the safety and reliability of nuclear power plants worldwide by working together to assess, benchmark and improve performance through mutual support, exchange of information and emulation of best practices.

# WANO

WANO was created in 1989  
to enhance safety worldwide.

No major accident since then.

We, Operators, all rely  
on each others

# Nuclear : An unforgiving industry

**One single Nuclear accident may jeopardize the whole Nuclear Industry**

Safety as the paramount priority :

→ Existing Fleet

→ New Build

→ Newcomers

**→ Importance of skills**

# The WANO programmes

Knowledge transfer through the WANO programmes :

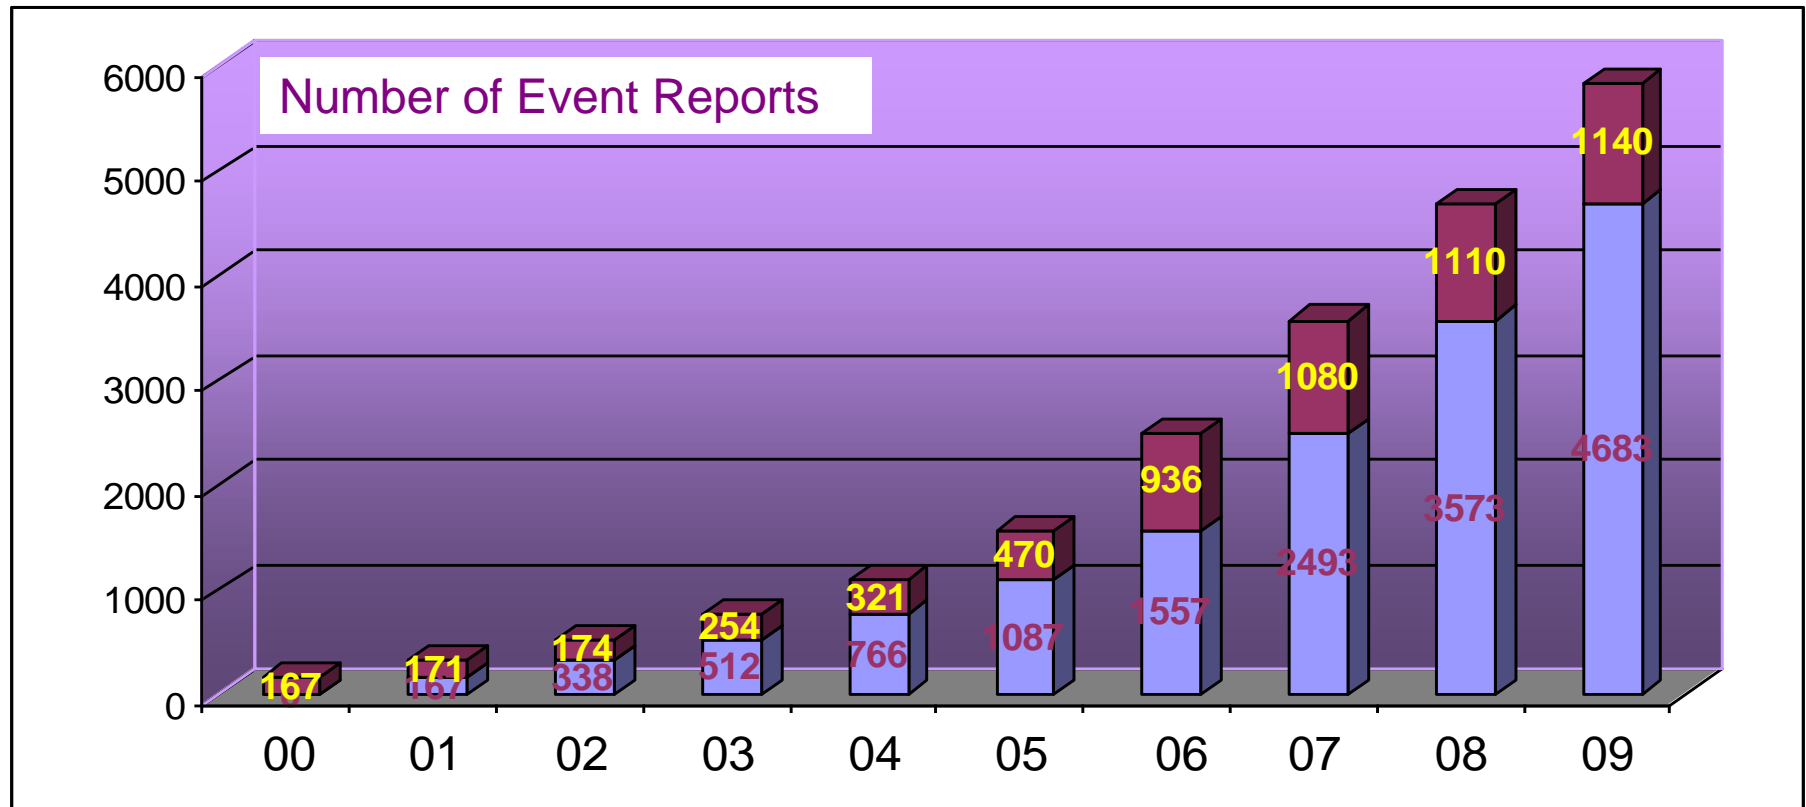

Detection  
of  
issues

WANO responses

# Technical Support and Exchange

Seminars and TSM are set up to help members to resolve problems and improve plant safety and reliability by disseminating data, providing supporting documents or lending hands-on assistance.

180 Technical Support Missions each year, Highly qualified peers visit the plant to help the station to find a solution to a specific issue.

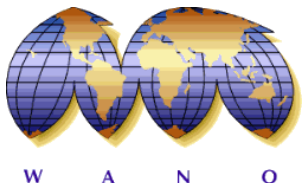

# Nuclear Safety

CEOs responsibilities :

Individual responsibility

Collective responsibility

# World Association of Nuclear Operators
